

Membership Application Form

The International Association for the Surgery of Trauma and Intensive Care IATSIC has been founded in 1989 during the biennial congress of the International Society of Surgery ISS/SIC in Toronto, Canada as an Integrated Society of ISS/SIC, stressing the commitment to trauma and to surgical intensive care. Members of IATSIC must also become members of the umbrella organization ISS/SIC.

Included in the IATSIC & ISS/SIC Membership is the subscription to World Journal of Surgery WJS (12 issues per year as per 2009) as well as online access to 10 additional surgical Springer journals.

Membership in the organization shall be limited to surgeons of good professional standing, who have a major interest and an active practice in trauma surgery and/or intensive care. Contributions to the scientific literature pertinent to trauma surgery and intensive care will be an important factor in determining membership.

The standardized (on-line or printed) application form for active membership must be submitted to the IATSIC Secretariat in Switzerland. The application form must be accompanied by a current curriculum vitae and the list of publications, as well as information on two sponsors, who must be members of IATSIC. Copies will be sent to the two sponsors to provide their confirmation of support.

The membership committee shall review the application and make a recommendation for membership. The committee has the right to accept or reject application for membership in the association. Once the application has been approved, the IATSIC Secretariat shall process all relevant documentation and inform the new member and the ISS/SIC office accordingly.

Send your Application Form and Enclosures (*CV, List of Publications*) to:
